

Ujo

- Decentralized content upload and streaming platform
- Allows artists to get paid directly in crypto for users consuming content

SingularDTV

- Comparable to a decentralized YouTube/Netflix
- Allows for funding of projects through the platform's native token
- The platform is looking to have artists upload original exclusive content

Musicoin

- Decentralized peer to peer music streaming service
- Aims to make music streaming more equitable for artists and free for users by using a UBI (universal basic income) model
